3D Printing, RepRap  
Parameters for the RepRap

Parameter	Value
Layer thickness	0.1 mm
Line width	0.4 mm
Retraction	0.5 mm
Retraction speed	10 mm/s
Travel speed	10 mm/s
Extrusion multiplier	1.0
Extrusion offset	0.0 mm
Extrusion temperature	200 °C
Bed temperature	60 °C
Chamber temperature	20 °C
Fan speed	100%
Fan on temperature	50 °C
Fan off temperature	40 °C
Fan delay	10 s
Fan timeout	10 s
Fan restart	10 s
Fan restart delay	10 s
Fan restart timeout	10 s
Fan restart delay	10 s
Fan restart timeout	10 s

## What is the European union?

- The European Union (EU) is a political and economic union of 27 European countries that collaborate to promote peace, stability, and prosperity across the continent. Established after World War II, the EU aims to foster cooperation and prevent future conflicts. It facilitates the free movement of people, goods, services, and capital, establishes common laws, and many of its member countries use a shared currency, the euro.

## European Central Bank (ECB)

- The European Central Bank (ECB) is the institution responsible for managing the euro, the common currency used by many EU countries. It sets monetary policy for the eurozone, aiming to keep prices stable and ensure the strength of the economy. The ECB decides interest rates, monitors inflation, and supervises major European banks to maintain financial stability. It is located in Frankfurt, Germany, and plays a critical role in shaping the economy of Europe.

## Main goal:

The main purpose of goal 12 is to ensure that we use the Earth's resources wisely and avoid wasting them. It encourages individuals, companies and governments to produce and consume in ways that protect the environment. Goal 12 emphasizes the importance of recycling more, wasting less and considering our purchases and disposal choices carefully. It also advocates for industries to create products that are environmentally friendly. By changing our lifestyles and work practices, we can ensure that future generations have sufficient resources, a planet that is healthy and safe for living.

### Task: My 3 Actions for Responsible Consumption Instructions for Students:

- In your notebook, not on a piece of paper, write down three simple actions you personally can do to help save the
