THE RAIDERS OF THE LOST TREASURE

Hel. March 31, 2025

TOP SECRET

But... where is the treasure?

Well... Find all the stages/steps of the game and decode the coordinates - they will show you where the treasure is hidden. For your convenience, three numbers have already been provided.

5 ▲ . ● ■ ★ ◆ ■ ▲ , ◆ ★ . ★ ■ ◆ 7 ■ 9
5 □ . □ □ □ □ □ □ , □ □ . □ □ □ 7 □ 9

Look around. Using the photo on the right and the key below (Atbash cipher) locate the magnetic container - the next stage of the game. Good luck!

H.W. Jones Jr

MORSE CODE

Morse code uses short and long signals, called dots and dashes, to represent letters and numbers. Samuel Morse, an American scientist, helped develop it to send messages over long distances using wires, radio, sound, or light. Messages are sent by tapping, drumming, buzzing, clicking, or flashing light.

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	
• — • —	• — • • —	• — • — •	• — • — • —	• —	• — • — • —	• — • — • — •	• — • — • — • —	• — • —	• — • — • —	• — • — • — •	• — • — • — • —	• — • — • — • — •	• — • — • —	• — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • —	• — • — • — • —	• — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • — • —	• — • — • — • — • —

BACON'S CIPHER

Bacon's cipher is a method of message encoding devised by Francis Bacon in 1605. To encode a message, each letter of the plaintext is replaced by a group of five of the letters 'A' or 'B' according to the alphabet of the Baconian cipher shown below:

A = aaaaa	O = abbaa	N = abbaa	T = baaba
B = aaaba	H = aabbb	I = abbaa	U/V = baabb
C = aaabb	L = abaaa	P = abbbb	W = babaa
D = aabab	K = abbaa	Q = abbbb	X = babab
E = aabaa	M = ababb	R = baaba	Y = babba
F = aabab		S = baaba	Z = babbb

CAESAR CIPHER

The Caesar cipher is a substitution cipher, where each letter is replaced by another letter located a little further in the alphabet (therefore shifted). The shift distance is always given, the most often it is 2 or 13, but the choice is up to the encrypting person.

Diagram illustrating the Caesar cipher with a shift of 3:

Plaintext: A B C D E F
 Shift: 3
 Ciphertext: D E F G H I

Baltic Sea

Did you know?
The Baltic Sea is one of the best kept secrets in the world. It is a semi-enclosed sea, surrounded by land, and is the only one of its kind in the world. It is also the only sea in the world that is not connected to the open ocean by a single strait.

What is it?

- It is a semi-enclosed sea.
- It is the only sea in the world that is not connected to the open ocean by a single strait.
- It is the only sea in the world that is not connected to the open ocean by a single strait.
- It is the only sea in the world that is not connected to the open ocean by a single strait.
